

Table of Contents

	<u>Page</u>		<u>Page</u>
1. Introduction		5. Environmental Analysis	
1.1. Prior Reports	1-1	5.1. Analysis Assumptions	5-1
1.2. Final Corridor Improvement Action Plan	1-2	5.2. Resource Impact Analyses of Scenarios 1-3	5-2
1.3. Study Goals and Objectives	1-2	5.3. Bypass Analysis (Scenario#4)	5-6
1.4. Decision Making Process	1-2	5.4. Passing Lane Segment Analysis	5-7
		5.5. Environmental Justice	5-8
2. Existing Conditions		5.6. Conclusion	5-8
2.1. National Transportation Trends	2-1		
2.2. Bridge and Border Crossings	2-3	6. Financial Analysis	
2.3. Vehicle Mix	2-4	6.1. Benefit-Cost Analysis	6-1
2.4. Travel Time and Delays	2-4	6.2. Improvement Benefits by Location	6-2
2.5. Accident Data	2-6	6.3. Passing Lane Benefits	6-7
		6.4. Expressway Benefits	6-8
3. Future Conditions		6.5. Costs	6-9
3.1. Future Traffic Forecasts	3-1	6.6. Benefit Cost Ratios	6-12
3.2. Future Needs	3-3		
		7. Implementation Plan	
4. Improvements		7.1. Statewide Funding Considerations	7-1
4.1. Village Improvements	4-1	7.2. NTE Funding Gaps	7-1
4.2. Corridor-wide Improvements	4-17	7.3. Funding Sources	7-2
		7.4. Additional Funding Programs	7-3
		7.5. Innovative Financing Opportunities	7-5
		7.6. Prioritization of Projects	7-6
		7.7. NTE Study Advisory Group Recommendation	7-7
		8. Appendix	
		8.1. Public Reaction and Feedback	8-1
		8.2. Study Advisory Committee	8-1
		8.3. Project Website	8-1
		8.4. Final Public Meeting Notes	8-2
		8.5. Study Advisory Group Meeting Notes	8-8
